- Polyurethane (PU)
- EPDM
- Neoprene
- Acrylic

Colours

- Black
- White
- Grey
- Clear

Adhesives

- Acrylic
- Natural Rubber
- Synthetic Rubber

Foam Tape Applications

Foam tapes are used in a wide variety of applications. They offer bonding, sealing (air, water, weather, dust, fire), cushioning, filling, sound proofing, spacing and mounting properties. Service temperature, intended substrate, bond strength and environmental conditions are all taken into consideration by our technical team when selecting the correct foam tape for your application.
