

Reflective Tape - Engineering Grade

Affixit's Engineering Grade Reflective Tape is an economy reflective tape enclosed lens retroreflective sheeting intended for use on signing applications requiring durability of up to 2-years, including traffic signs, advertising graphics, or promotional signing. Made with a polyester face film, the sheeting is strong and rugged for demanding short-term signing applications. It is supplied with a permanent pressure-sensitive adhesive and easy-release paper liner.

Sizes Offered

- Widths: 15mm - 1240mm
- Lengths: 9 Metre or 45 Metre Rolls
- Standard & Custom Sided Rolls, Sheets & Gaskets

Applications

- Signage
- Bollard Marking
- Short Term Demarcation
