

Reflective Tape - Class II

High Intensity Microprismatic (HIP) Retroreflective Tape for permanent and temporary traffic signage, high-quality, durable, microprismatic retroreflective tape with a pressure sensitive adhesive. Unique microprismatic construction provides a high level of retroreflectivity for demanding traffic control situations. Omni-Directional retroreflective tape that incorporates tiles of microprisms arranged in multiple orientations. Ensuring confidence that all signs will perform with uniform visual reflectivity at all sign face orientations.

Sizes Offered

- Widths: 15mm - 1240mm
